

**2nd Annual Conference of the
International Functional Electrical Stimula-
tion Society
(UK and Ireland Chapter)
10-11th March, 2011
University College Dublin
Ireland**

The objective of this conference is to provide a forum for researchers and clinicians to discuss and develop the area of neuromuscular electrical stimulation (nmes).

Presentations will include international experts in the field as well as oral and poster presentations. Topics covered will include the use of nmes/fes in neurology, orthopaedics, respiratory, sports performance and rehabilitation.
